# LeafItToMe

Created by Trinity Hutson

Overview

Making decisions is hard.
Leave it to me to decide your tea!

- Create an account
- Choose what teas you like
- Get a random one chosen for you

Supports a community managed list of teas to pick from, or add to!
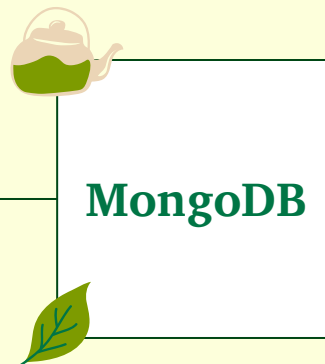

Top-Level

React Bootstrap

Express Mongoose

MongoDB

Client

Uses Bootstrap components and custom components to display the teas

Server

Handles client requests. Communicates with the database to fulfill them.

Database

Split into two collections: **teas** & **users**
Teas holds all teas. Can be modified by anyone.
Users contains sensitive user information, and each personal collection.

Demo

Thank you!

Any questions?

PS: You should drink more tea!
